

22nd April 2025

Dear Resident,

Upcoming Highway Improvements, Caister-on-Sea

We are writing to provide an update which follows our previous correspondence regarding the highway infrastructure improvements to Jack Chase Way. As you will be aware, the initial phase of works required a full road closure for a period of six weeks.

We are now preparing to carry out the next phase of works. These upcoming works are the completion of drainage work and connections following the previous works carried out, but this will not require a full road closure. Access to the road will be maintained throughout, although some temporary traffic management may be in place to ensure the safety of both the public and the workforce.

The work is scheduled between **Monday 28th April – Wednesday 7th May** on **Norwich Road, Caister**. We would like to emphasise that works will be carried out on **weekdays only, for a total of seven working days**. Roadworks will be carried out overnight between the **hours of 19:00-06:00** when the road is quietest. Traffic signals will form a four-way traffic control system overnight. During the day (06:00-19:00) the road will be open as normal.

We will attempt to keep noise and disruption to a minimum, however due to the nature of what is proposed, some noise will be unavoidable. Due to rules set out by Norfolk County Council, we are required to complete these works overnight to ensure the road is open during the day, avoiding traffic build up and congestion. We understand the disruption that road works can cause and are committed to minimising inconvenience wherever possible.

This information and further updates on our progress may be found on our resident website: <https://resident-portal.co.uk/caister/> or via the QR code overleaf.

Yours sincerely,

Construction Team
